Estuaries form where river meets sea and fresh water mixes with salt. Teeming with life, these places of salt marshes, mudflats, and tidal backwaters serve as nursery areas for oceangoing fish, migratory stopovers for shorebirds, and homes for an amazing diversity of snails, bivalves, fish, mammals, horseshoe crabs, fiddler and blue crabs, terrapin turtles, plankton, and many others, all of whom we meet in the pages of this delightful book. Narrated in the poetic voice of the estuary itself, and accompanied by natural-history sidebars about estuary plants, animals, and cycles, The Secret Bay is another topnotch nature book from the author and illustrator of the award-winning, bestselling Secret Pool.
